LEARNERS

CLASS 1

Writing: Eliza Fairclough

Maths: Rose Parnell

Learner: Erin Singleton

CLASS 2

Writing: Elsie Hill

Maths: Mia Postlethwaite

Learner: Amelie Taylor

CLASS 3

Writing: Cameron Slaughter

Maths: Scarlett Gonter

Learner: Oliver Robinson

Writing: Sam Price

Maths: Silas Raine

Learner: Laurence Stallard

Dates and Events

May

WC Monday 22: Electricity Themed Science Week

Thursday 25: Science Projects exhibition (1pm)

Science lessons drop in (1:30pm)

Celebration Assembly (2:30pm)

Friday 26: INSET DAY

June

Monday 5: Bikeability Level 3 - Y6

Friday 9: Teddy and Tombola own clothes day

Thursday 15: Class 4 to Slave Trade Exhibition

Tuesday 20: Sports Day

Tuesday 27: Back up Sports Day

Thursday 29: Skateboards and Scooters

Friday 30: Bottle Tombola own clothes day

July

Friday 7: Summer Social (4pm - 6pm)

Thursday 13: Leaver's Play (6pm)

Monday 17: End of year reports sent to parents

Tuesday 18: Leaver's Pizza and Rounders (4pm)

Wednesday 19: Leavers Assembly (2pm) and End of School Year.

WHAT A WONDERFUL WEDNESDAY

What a joy it was to be in school on Wednesday. Across the school, children were engaged in exciting creative and interactive activities.

Class Three Ukulele Lessons

Class Three are now four weeks into their ukulele lessons and are progressing really well. They are mastering the holding of the instruments, fingering the cords and playing together. It is a challenge and they doing well.

Thanks to everyone who brought in a contribution to the termly Friday Foodbank collection. It will go a long way to helping people in need.

The Friends of Archbishop Hutton's School Association are a group of volunteers who meet once a term to plan fund raising events. All the money raised at events like the Christmas Fayre and the Easter Bingo goes straight back into school. In recent months we have purchased new reading books, contributed to the coaches for the Christmas pantomime trip and the rejuvenation of the school pond. We are always overwhelmed with the support the school community gives us at events and for this we are truly grateful. Here are some other ways that you can be involved with supporting school.

Science Week - 22nd to 25th May 2023

The last week of term will be our annual Science Week. This year the focus will be investigating and electricity.

Here are three challenges for Science Week. Please choose one of the challenges and bring your work on Dress Like A Scientist Day (Thursday 25th)

We would like you to make a model, poster or booklet about an area of science. We would like you to research and create your project about either:

A famous scientist or inventor.

There are thousands of famous inventors and scientists. Do some research about them and then use your project to tell us all about their lives and their work.

An animal or dinosaur.

What is your favourite animal or dinosaur. Read about them, find lots of facts and then create your project to let other people know all about the animal's lifecycle, habitat and diet. Amaze everyone with something they didn't know before.

An incredible building or structure.

Maybe you like the Eiffel Tower, The Angel of the North, Tower Bridge or Stonehenge. Why not make a poster about your favourite structure or a fantastic model. Find out plenty of facts - who made it, how heavy is it, how tall is it - ready to impress your teachers, friends and family.

Class Two Made Scarecrows

Class Two continued the Wonderful Wednesday theme by working with villagers to make scarecrows for the Open Gardens event. They thought hard about their designs and used lots of craft skills to make their fantastic scarecrows. You can see more of them on the school gallery on the website.

Your School Lottery

PLAY NOW
Just £1 per entry

Your School Lottery is a weekly lottery that raises money for school. Tickets cost as little as £1 a week. Each ticket consists of 6 numbers between 0 and 9 and every Saturday night there is a draw when a 6 digit winning combination will be picked. There is also a guaranteed winner from each school every Saturday. From every £1 ticket sold 40p goes to schools across the UK. To join visit: yourschoollottery.co.uk

Support our Summer Social

We are always grateful for donations of:

- Tombola, Raffle prizes
- Teddys and bottles
- Volunteers to set up and pack away
- Stalls that sell crafts
- Pre-loved uniform in good condition
- Pre-loved toys in good conditions
- Come and have a great time supporting the school

Class Three and Four Lego Day

Class Three and Four contributed to Wonderful Wednesday through their work with the Lego Man. The activities kicked off our Science Week with an exploration of electricity and STEM engineering. Class Three built buildings, then made electrical circuits to light them up. Class Four made fairground models using Lego, then programmed the computer to make the fair rides work. It was an excellent example of team work and real life learning.
