

Important Dates

March

Thursday 7: World Book Day

Friday 8: Science Day - Parents Session (PM)

Friday 15: Comic Relief - Backward Clothes Day

Monday 25: Most Improved Assembly (9 AM)

Tuesday 26: Parent's Evening

Wednesday 27: Borwick Hall Day - KS1

Easter Bingo @ 6PM

Thursday 28: Borwick Hall Day - KS2 - Term Ends

Meet Our SUPERSTARS

Learner of the week:

Being a real team player

CLASS 1

Writer: Robin Ormondroyd

Maths: Maddison Wilson

Learner: James Kirkham

CLASS 2

Writing: Dylan Parker Vickers

Maths: Erin Singleton

Learner: Mia Postlethwaite

CLASS 3

Writing: Edie Bowden

Maths: Isla Grimshaw

Learner: Paolo Aziz

CLASS 4

Writing: Scarlet Gora

Maths: Mason Milner

Learner: John Aziz

Team Points this Week

Senset : 739

Hutton : 991

Washington : 860

Crag: 1007

Young Voices Choir Concert

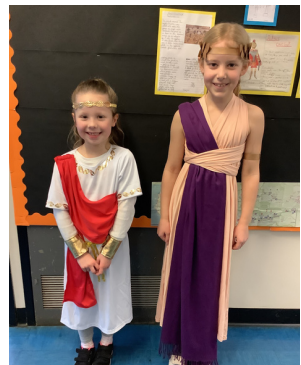

Monday was the Young Voices Choir concert at the Manchester AO Arena. Class 4 spent the afternoon rehearsing with the band and other schools, then during the evening we took part in the concert. Singing alongside 9,100 other children was an incredible experience, boosting confidence, allowing the children to express their creativity and have fun. They were great.

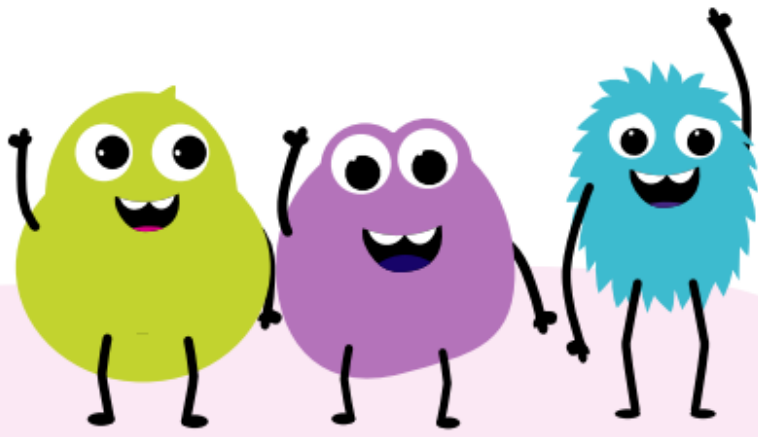

Today we had a non-uniform day to end the half term. In return for wearing their own clothes, children brought in an item for us to donate to the **Morecambe Food Bank**. Thank You.

Class 3 Roman Soldier Visit

This Friday, Class 3 spent the morning with a Roman Soldier. They learnt all about the army, carried out drills and found out about the incredibly heavy armour.

March 4th - 8th will be **Science Week** in school

Here are some things that we will be doing and how the children can take part. We always have great fun during Science Week and learn lots too.

Home Learning Activities

Before the week we have a great challenge to have a go at. Children should complete this and bring it in on **Science Day (Friday 8th)**

Design a Science Box.

We did this two years ago. Create something scientific inside a cardboard box. It could be:

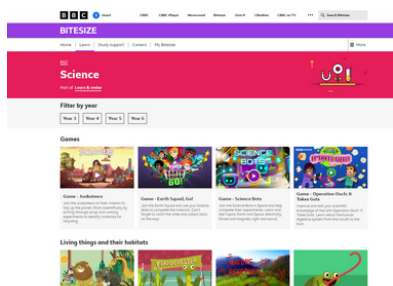

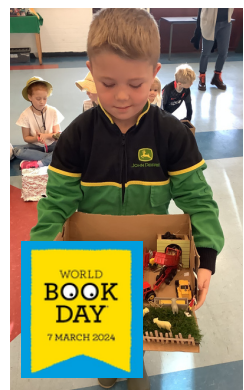

- A solar system
- A habitat (under the sea, farm, woods etc)
- A science event (Moon landing, Mary Anning finding fossils, Wright Brothers flight, the first TV signal etc)
- An explanation of science (how rainbow is made, water cycle, colours, digestion etc)

The box will be shared with everyone in school. Here are some ideas from two years ago.

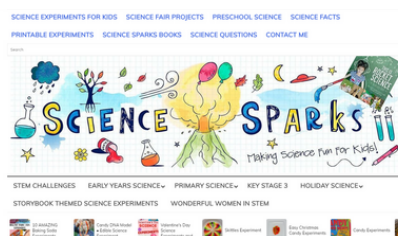

During the week, there will be lots of Science and STEM activities happening in class. **Parents are invited to school at 1:15 on Friday 8th** to take part in some investigations and visit our Science Box exhibition.

Thursday 7th March is also World Book Day. Children can come dressed as a book character as usual, but if they come in a science themed costume they will be given a raffle ticket with the chance to win a prize. They can also bring a science themed book to share.

BBC Bitesize has lots of Science themed games and short videos to watch and give you ideas. <https://www.bbc.co.uk/bitesize/subjects>

Science Sparks website has lots of fun Science experiments. Why not have a go over 1/2 term? <https://www.science-sparks.com>
